abrdn UK Real Estate Fund

INVESTMENT POLICY AND OBJECTIVES

The Fund's investment objective is to achieve income and capital growth through investment predominantly in UK real commercial property (mainly the retail, office and industrial sectors, but possibly including smaller sectors such as leisure property). The Fund will seek geographic diversification across the UK amongst properties held. Its benchmark is the MSCI UK All Property Monthly Index.

INVESTOR CONSTITUENCY

The Fund is open to investment by pension funds, charities, insurance companies, other corporate and institutional investors, and private individuals

Unit pricing

The fund changed from dual priced to a single swinging price with effect from 18th March 2016.
The unit price is re-calculated daily at 12 pm. The Cut-Off Point by which the Authorised Corportae Director must have received applications to deal in Shares is 11.59am

Distributions

The units are priced on an XD basis on the first day of every month. Payment is on the last day of every month (with the exception of the year end, when the Fund goes XD on 1 January and the Payment date is 15 February).

Minimum investment/disinvestment

The minimum investment is GBP500 unless it represents a regular monthly contribution, when the minimum amount is GBP50 (with a monthly maximum per investor of GBP50,000). The minimum disinvestment is not less than GBP100, ensuring that at least GBP250 remains invested. There is a limit a maximum value of units (currently GBP5m) on the value of units that may be sold by the manager to a single investor in any calendar month. (All of these amounts are subject to the discretion of the Fund Manager.)

Creation, transfer and realisation of units

Units can be bought or sold by giving notice on any business day between 9.00 am and 5.00 pm. Units are bought or sold at the price calculated at the next valuation point ie 12 pm on the following day. The proceeds of a sale will normally be posted within four workings days after the receipt of written sale instructions. In the case of telephone instructions, settlement will be made on receipt of a completed form of renunciation which is issued with the contact note.

The manager reserves the right to suspend the issue and redemption of units for up to 28 days where this is in the interests of unit holders, and to defer redemptions for up to six months if there is insufficient liquidity in the fund to facilitate daily redemptions

Taxation

The PAIF Fund is generally exempt from United Kingdom tax on capital gains realised on the disposal of its investments (including interest-paying securities and derivatives).

The PAIF Fund qualifies as a PAIF for tax purposes. Accordingly, the income generated by its Property Investment Business will be exempt from tax. Any dividend income it receives from United Kingdom companies or, in general, from non-United Kingdom companies will also be exempt from tax. It would, however, be subject to tax in the unlikely event that there should be a net balance of other income, which will generally consist of interest but could include other property income, less deductible expenses and the gross amount of any PAIF interest distributions made, or a tax charge otherwise arises.

The distributions of the PAIF Fund will be split into up to three streams for United Kingdom tax purposes

- property income distributions, representing income from the PAIF Fund's Property Investment Business;
 PAIF dividend distributions representing any dividends received by the PAIF Fund and certain other income; and
- PAIF interest distributions representing the net amount of all other income received by the PAIF Fund

The Sub-funds (Feeder Funds)

The Sub-funds are exempt from United Kingdom tax on capital gains realised on the disposal of their investment in the Standard Life Investments PAIF The Sub-funds will receive income (or be deemed to do so in the case of accumulation Units) from the Standard Life Investments PAIF. This will be streamed for tax purposes into up to three parts depending on the nature of the income generated by the Standard Life Investments PAIF:

- property income distributions (representing property income received by the Standard Life Investments PAIF) will be received net of 20% tax and no further corporation tax will be payable by the Sub-fund in question on them:
- PAIF dividend distributions (representing any dividends received by the Standard Life Investments PAIF and certain other income) will be exempt from corporation tax; and
- PAIF interest distributions (representing the net amount of all other income received by the Standard Life Investments PAIF) will be received net of 20% tax and no further corporation tax will be payable by the Sub-fund in question on them

Each Sub-fund will pay all distributable income as dividend distributions (or accumulate it within the Sub-fund in the case of accumulation Units).

Income Tax

Distributions are classed as dividends which carry a tax credit at the rate of 10% of the gross income. Individual unitholders whose income is within the lower or base rate bands will have no further tax to pay. Higher rate taxpayers can set the tax credit against their tax liability, which will be charged at a rate of 32.5% on dividend income

Stamp duty reserve taxTransfers of units attract SDRT at the standard rate, currently 0.5%.

Corporation tax

Only the Feeder Fund is subject to corporation tax at the rate of 20%.
